Relevant Coursework: Data Structures and Algorithms, Database Management, Operating Systems, Computer Networks

Experience

Freelance Web Developer / @Photo Studio   **Mar 2025 -Present**
* Designed a clean and responsive website for a local photo studio using HTML, CSS, and JavaScript.
* Incorporated a contact form using Form spree to easily handle messages without traffic server-side coding.
* Regularly maintain and continue to provide website updates as needed by client.

SQL *Intern* / @Codtech / Library & Hotel Database Systems   **Dec 2024 -Jan 2025**
* Contributed and administered SQL databases to exceptional projects like Library Management System and Hotel Booking System.
* Wrote queries with some joins, some group byes and filters, retrieving and managing database systems.
* Expanded knowledge in database systems including database design, normalization, and how to optimize queries.

Web Development *Intern* / @Happy Visitors Dot Com / Portfolio Website Project   **June 2023 -July 2023**
* Developed a complete project portfolio website using HTML, CSS, JavaScript, and PHP.
* Designed responsive web pages including Home, About, Projects, and Contact sections.
* Created interactive UI components and integrated form handling with backend PHP for contact submissions.
* Implemented clean, reusable code and ensured cross-browser compatibility.
* Gained practical experience in frontend and backend integration, layout design, and hosting essentials.

Projects

Holiday Homes Management System / *Web app* / Code / Video   **Mar 2025**
* A holiday home booking system with 3 roles: Admin, House Seller, Customer.
* Admin can see how many houses, customers, sellers and can add categories.
* House Sellers can upload their houses, see customers, update their profile and delete their account.
* Customers can book houses by location, type, and see their current/past bookings, update their profile, and delete their account.
* Built using ASP.NET, MySQL, HTML, CSS, and JavaScript.

Rock Paper Game / *AI Game App* / Code / Video   **Nov 2024**
* A hand-gesture based Rock Paper Scissors game using Python.
* User presses 's' to start, and 'q' to quit the game.
* Once 's' is pressed the webcam will detect the Users hand gestures to play against AI.
* Built completely using Python with OpenCV and gesture detection libraries.

Company Website / *Static Website* / Code / Video   **Aug 2024**
* A static company website that has full information about the company.
* Shows what services the company has and is cleanly designed.
* Built using HTML, CSS, and JavaScript.

Extinct Animals / *Awareness Website* / Code / Video   **Feb 2024**
* A static website that displays information about extinct animals.
* Made for the purpose of spreading awareness and has posters and information of the animals.
* Built using HTML and CSS.

Leadership / Extracurricular

* Event Management: Led a state-level event in my Diploma college, handled ranking and level design.   **Jan 2024**
* Top 10 Finalist – Ashwamedh Hackathon, OSCILLATION 2025 (IETE + VPP COEVA)   **Apr 2024**
* IEEE GRSS Student Core Committee Member – Technical Member: Worked on website development and technical aspects.   **Present**
